

How To Adjust The Toner Thresholds of a printer?

The accurate settings are important for the automated toner supplies ordering process!

1. Login to the web portal www.pay-for-print.com
2. Goto [Notifications](#) > Alert Settings > Alert Manager

3. In the first drop-down-field select your customer.
4. If no Toner Low Alert appears, please goto step 5. otherwise goto step 8.
5. Press “New Alert” in the lower right corner (**ATTENTION: It must happen only one (1) Toner Low Alert in this view!**) Other Alerts may be there too.
6. In the next mask enter
 - a. the Title as given in the picture below(this will be the subject in the email the recipient will receive)
 - b. the E-mail address of the recipient
 - c. check on all checkboxes below Alert Conditions/Toner and enter a toner threshold for every colour (the thresholds may be different)
7. Press “Save” to store your settings.

8. Press “Edit” on the Alert above
9. Adjust the settings for your customer and press “Update” in the lower right corner.
